***Starting the First Friday, and then through the end of the month, you may come to the bar during normal operating hours to do your monthly club wine tasting. At the time of the tasting you will be able to choose your favorite wines from your tasting level. We expect to always have appropriate inventory so you will be able to take your picks with you at the time of the tasting. If for any reason, we do not have inventory of the wines you choose from your tasting, we will order those for you. When they arrive, we will notify you that your wine has arrived.***

***If you miss a month, you will still have the opportunity the following month to come in and choose your gold or platinum level wines from available inventory. You will have 30 days following the month to pick up your wine. If the wine is no longer available, we will work with you to find an appropriate replacement from current inventory. There is no guarantee that the previous club wines will be available to taste when you visit the bar. If though the club wines are available by the glass, Steve's will be happy to taste you on the wines you missed the prior month.***
